MICHELIN STARCROSS 5 HARD

High-performance motocross tyres for supercross bikes.

The go-to supercross tyre

High-tech performance

A wide range of sizes

All-season

Key benefits

Michelin always aims to bring together multiple performances.

At MICHELIN, we never work on one isolated element of performance. Instead, we focus on the whole package: safety, durability and the thrill of riding... all at the same time and with no trade-offs. That's what we mean by MICHELIN® Total Performance™, which has and will always be our difference on every tyre.

For the most extreme races

After hours and hours of thought and miles and miles of terrain, we've achieved an incredible result. For three years, our engineers and riders have worked hand in hand to create these exceptional tyres, especially designed for supercross motorcycle racing.

High-tech performance

Lighter and with better handling, the new Starcross 5 Hard tyres bring a range of technologies together. Their flexible carcass is one of their key features. Their performance on the straight and through the corners is optimised to provide better traction and more gradual cornering for your bike.

A wide range of sizes

A wider range of sizes for use on a wider range of bikes.
